Date: Thursday, May 14, 2015 2:48:00 PM

Kathy, I have reviewed the description of work proposed by ODEQ for Tar Creek OU5 and Wilcox Oil Company. The work described is consistent with that expected to be completed on each respective project. I have no comments or questions related to the work they expect to do for each of these sites.

The work plan does have a section titled 'FTE'. I assume this to be representative of the person's percentage of time devoted to the work described. For example, under Wilcox it is stated that an Environmental Programs Manager will devote 20% of the time to this project. If I am interpreting this table correctly, then I have no comments or questions related to the anticipated time they estimate for each person to work on the projects listed. If this is not a correct interpretation, then I will need to meet with you so that I can better understand the table.

Please review the attached work plan for OU-4, OU-5, and Wilcox for Management Assistant Work and Site Assessment that has been proposed by ODEQ. Please forward comments to me by May 21, 2015. If you have no comments and agree to this work plan, please send me that info also.

This work plan and budget is for the new 2 – year Cooperative Agreement which is scheduled to begin July 1, 2015. Thank you,
Kathy
